## Field Trip - MCA

## Name:

Follow directions and answer to the best of your ability! This is due 10.3.14 Friday!

1. Choose a work of art that stands out to you in the museum. Tell me the name and artist. Describe the piece of work to the best of your ability. I do not want to know what the artist plate says about the work, I want to know how you would describe the art to someone else. How does it make you feel? What is it made of? What do you think the artist is trying to say with this artwork? Why does this artwork stand out to you? (Use Visual Thinking Strategy)

**2.** Now think about impressions: What sort of impression is this art piece making on you? What sort of impression is it making on the world around it?

**3.** Using the back of this paper, create an advertisement using the art piece and the impression it has made on you. Is it happy, sad, informative, angry? How can this art piece or a section of this art piece be used to advertise the impression?
