

ATL Questia Film Quest

Name:

Date:

We are now going to be using Questia, an online research database, for the remaining majority of our research for our Reflective Projects. Do your best not to get frustrated, for it can work wonders if you have patience. This assignment should help you learn to navigate the site and its resources. Also, this work should guide your film production, our next project. (Yes, your research here should be related to whatever you want to make your film about.)

1. Choose a topic, either culture/language related OR your current Ethical Dilemma. Identify it here:

2. Create a “New Project” and title it, accordingly, under “Your Projects” and list the title here:

3. Choose a topic that is interesting to you, so that it will be interesting to your audience. What do you envision your film will be about? And, how do you plan on keeping it interesting?

4. What words or phrases are you “searching”? You should try at least 5.

5. How many results came up?

6. In your search, try using the suggestions on the first page of your Questia handout. Which suggestions helped you get to the information that you wanted?

7. Choose at least 3 sources to save and put the “Reader Tool” on. What sources did you choose?

8. Create a bibliography using APA style citation for your sources.
